

Foundations of Evidence-Based Strategies

Transition Age

10.5
hours

"I have already recommended the course to others and have told them that this was one of the most helpful professional development opportunities that I have participated in during my career."

Learn Valuable Strategies Today!

Adolescents and young adults with ASD need many critical skills as they prepare for transitioning from high school into their own, unique adult lives. This 10.5 hour course will show you how to use evidence-based strategies to support individuals who are transition-aged and young adults through video examples at home, school, work, and in the community.

Earn a certificate of completion and CEUs from many participating organizations.
